

VOYAGE TO THE UNKNOWN

There is an TV series called VOYAGER
It tells the story of a starship carrying the crew to travel through the galaxy
Exploring the journey of various unknown civilizations

We hope this Gravel Bike built by INCOLOR has strong versatility
We wish VOYAGER can like the starship, taking every rider to bravely explore the unknown

ELEGANT

VOYAGER continues the design language of the SPEEDSTER, and reinterprets it on the gravel roads.

Using more versatile 27.2mm seat post and 1.5-inch headset, as well as a UDH dropout system.

LIGHTWEIGHT

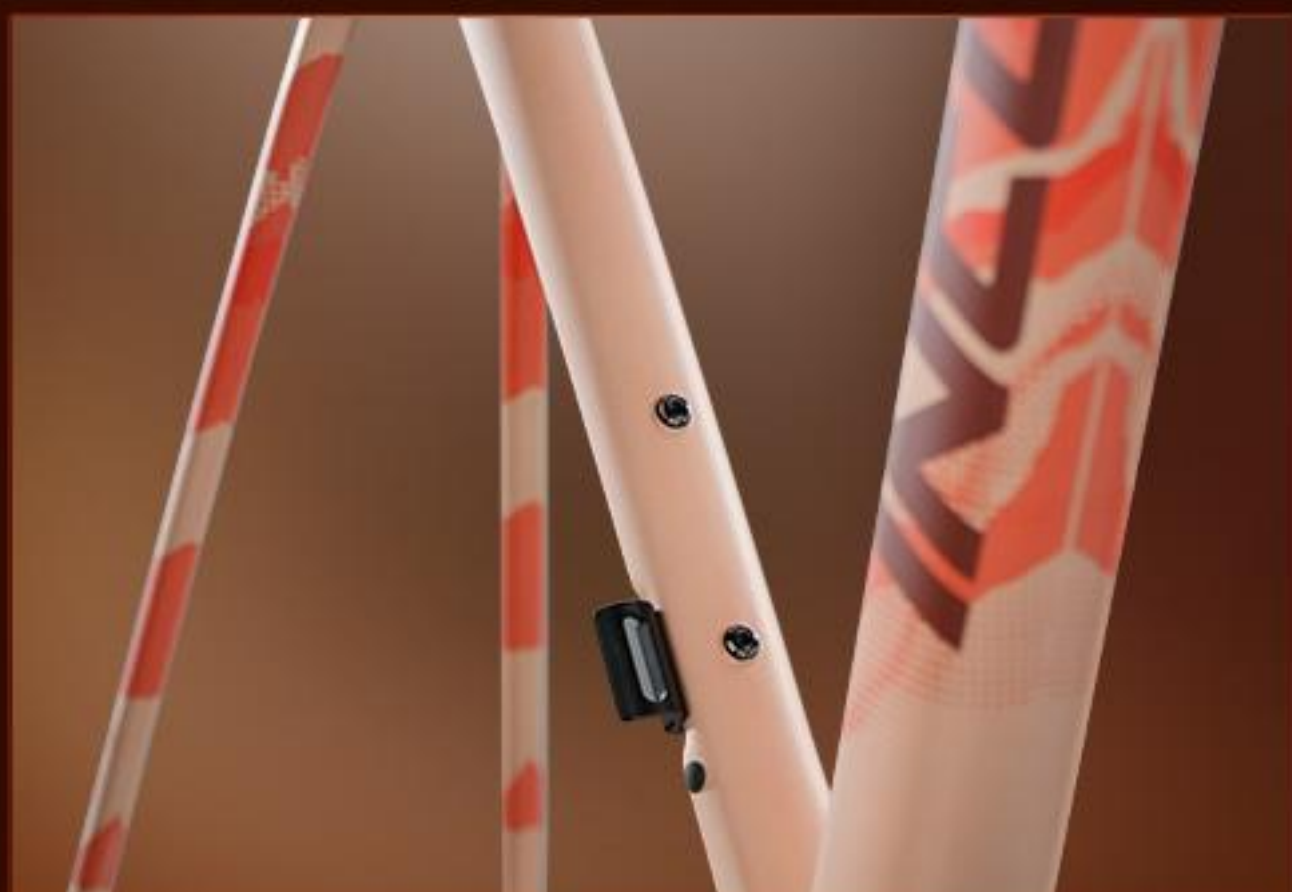

Surface area only 3289cm², leading to a lightweight of 850g

Short chain stay and high stiffness design make VOYAGER capable of easily tackling rugged climbs

STRONG

Using cross-country bike testing standards
Slim tubing provides thicker walls
Ensures higher impact resistance
But still maintain lightweight

BOUNDLESS

Maximum tyre compatibility: 45C

Available for 50T single-disc and 52/36T double-disc system

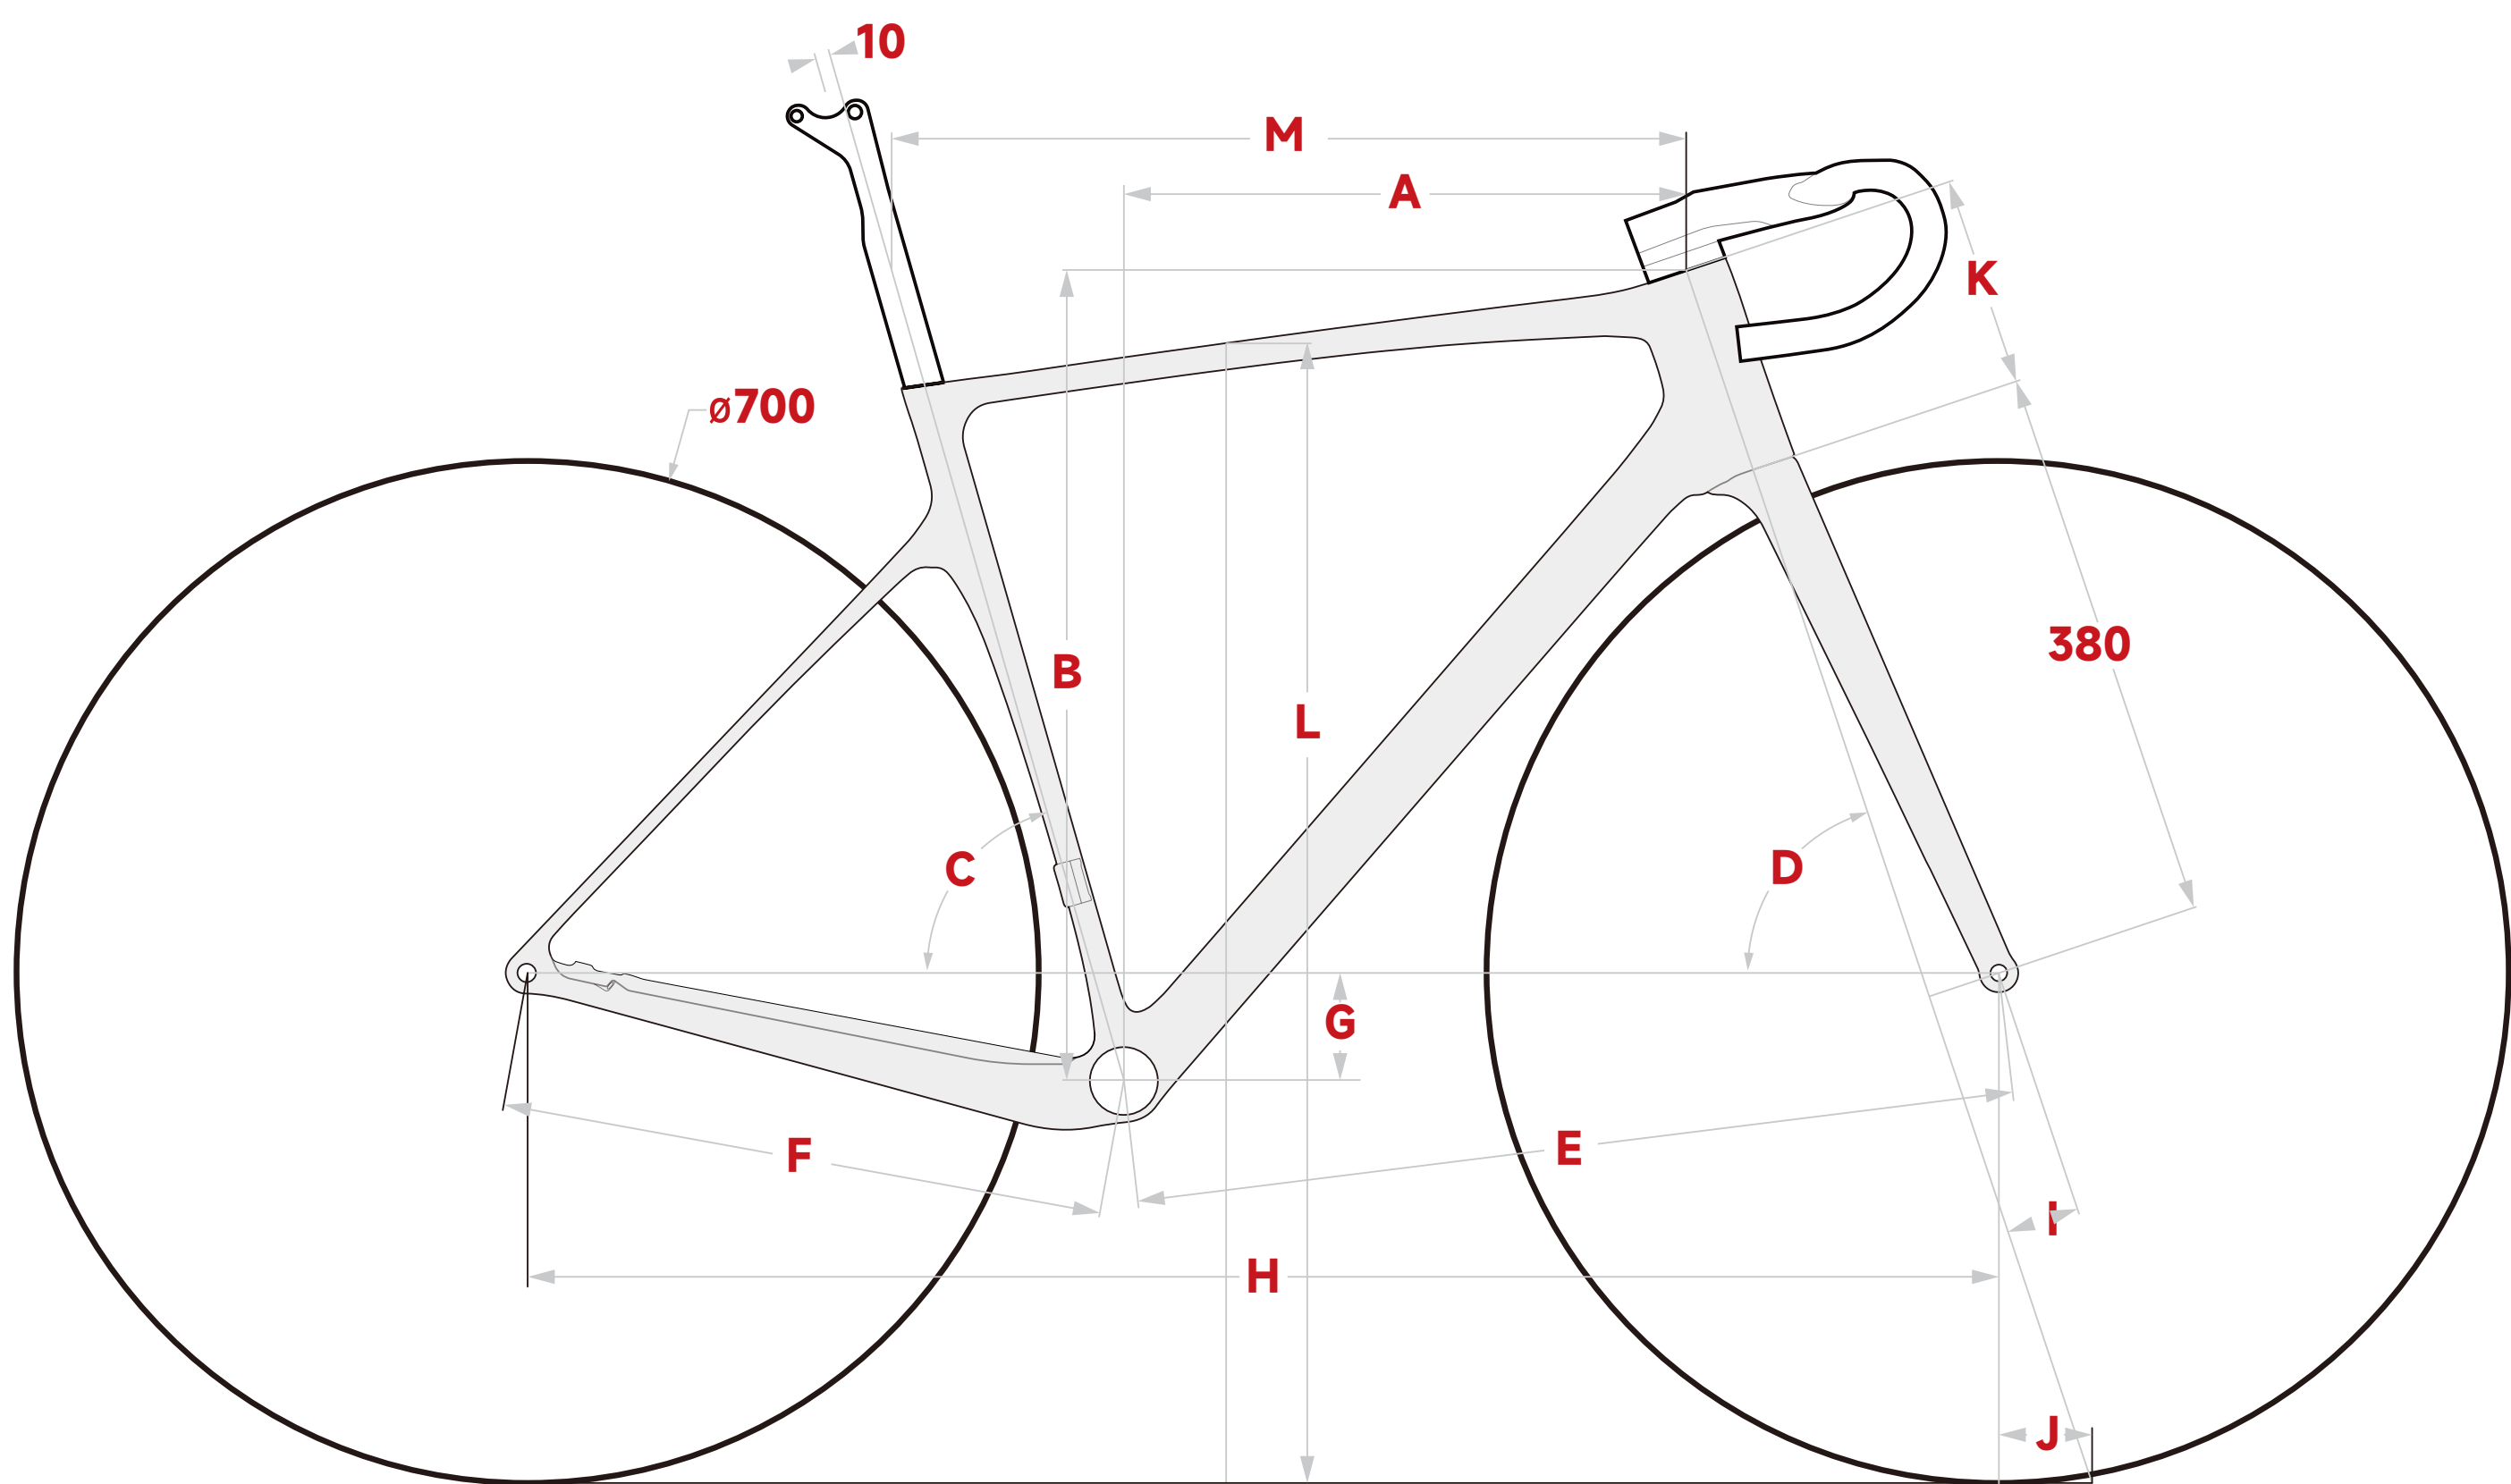

While rear dropouts are still only 415mm

Enable VOYAGER to perform exceptionally well

Whether on gravel or tarmac roads

Support you boldly explore the journey and venture into the unknown
